## BACKEND DEVELOPER

Experienced backend developer skilled in Node.js, Express.js & Nest.js, specializing in crafting scalable solutions & database management. A dedicated advocate for clean code, committed to staying abreast of emerging technological trends.

## EXPERIENCE

### BACKEND DEVELOPER

O'CYBER | LAHORE, PAKISTAN

MAY, 2023 – JAN, 2024

### TRAINEE WEB DEVELOPER

WHITEBOX TECH. | LAHORE, PAKISTAN

FEB, 2023 – APRIL, 2023

## PROJECTS

### Beloz Language Services:

Led the backend development of 'Beloz Language Services,' an American-based project dedicated to efficient interpretation services. Spearheaded the construction of the backend infrastructure from scratch, focusing on core features such as interpreter availability, call routing, and language pairing. The project significantly addressed language barriers, particularly in healthcare scenarios, offering a seamless and secure platform for effective communication.

### Technologies & Tools:

Nest.js, MongoDB, Redis, Postman, Swagger

### ZKteco Devices Management System:

Developed system for managing attendance, user record and syncing data across multiple ZKteco devices using python scripts.

### Technologies & Tools:

Python, SQLite3, AirTable
