English

IELTS (7.5 Overall Score)

Urdu

INTERESTS

- Anime
- Movies
- Memes
- Gym
- Video Games

PROFILE

Hands on experience with both front-end & back-end tech but more inclined towards back-end development due to it's challenging and logical nature as I crave that. Committed to top-notch code & ongoing skill enhancement to stay ahead in the field. I consider handling things, with responsibility & proper planning, to be of a greater priority.

SKILLS

Backend

Node.js, Express.js

Frontend

HTML, CSS, JavaScript, React.js

Databases

MongoDB, AirTable

Familiarity with other tech.

Python, PHP

PROJECTS

eNotes

A web app for creating and managing notes with proper authentication of users.

Technologies & Tools:

React.js, Node.js, Express.js, MongoDB, Postman

Attendance Tracker

A web-based application for keeping track of employees' attendance. Additionally, the app offers features including user requesting a leave of absence and an administrator may approve or deny the request.

Technologies & Tools:

React.js, Node.js, Express.js, MongoDB, Postman

Ride Share App

Developed REST APIs for a ride share app.

Technologies & Tools:

Node.js, Express.js, MongoDB, Postman
